

CALL FORWARD NO ANSWER

Whenever you can't answer, forward your calls to someone who can.

How it works:

If you can't get to the phone, you can be sure that your calls won't go unanswered. You can easily change the forwarding number – even choosing how many times your phone should ring.

To “turn on” the service:

1. Lift the handset and listen for the dial tone.

2. Press *92.

3. Listen for the dial tone.

4. Dial the number of rings (from 2 to 9) to be allowed before the call is forwarded. Then, dial the number where you want your calls forwarded.

5. When the phone is answered, your Call Forward No Answer is in effect.

If the line is busy, or there's no answer:

6. Hang up.

7. Within two minutes, repeat steps 1 - 4 above. You'll hear a confirmation tone to let you know your Call Forward No Answer is now working.

To “turn off” the service:

1. Lift the handset and listen for the dial tone.

2. Press *93.

3. Listen for the confirmation tone, then hang up. Your Call Forward No Answer is now “off”.

To change the “forward to” number:

1. Turn off Call Forward No Answer, (see above).

2. Repeat steps 1-5 to turn on Call Forward No Answer, entering the new “forward to” number.

Note:

- Dial the number exactly as if you are calling directly. For a local number dial the 10-digit phone number. For a long distance number, dial “1” plus the area code. Or if you have speed calling, you may dial one of your codes instead.
