

CALL FORWARD BUSY

When your line is busy, your callers can reach someone else.

How it works:

Whenever you're on the phone, you can be sure your callers can talk with someone else or can leave a message for you. Easily turn it on or off, or change the forwarding number – anytime.

To “turn on” the service:

1. Lift the handset and listen for the dial tone.

2. Press *90.

3. Listen for the dial tone.

4. Dial the number where you want your calls forwarded.

5. When the phone is answered, your Call Forward is in effect.

If the line is busy, or there's no answer:

6. Hang up.

7. Within two minutes, repeat steps 1 - 4 above. You'll hear a confirmation tone to let you know your Call Forward Busy is now working.

To “turn off” the service:

1. Lift the handset and listen for the dial tone.

2. Press *91.

3. Listen for the confirmation tone, then hang up. Your Call Forward Busy is now “off”.

To change the “forward to” number:

1. Turn off Call Forward Busy, (see directions above).

2. Repeat steps 1-5 to turn on Call Forward Busy, entering the new “forward to” number.

Note:

- Dial the number exactly as if you are calling directly. For a local number, dial the 10-digit phone number. For a long distance number, dial “1” plus the area code. Or if you have speed calling, you may dial one of your codes instead.x
